

StorageCraft to Exhibit at Data Protection Summit

DRAPER, Utah, U.S.A. – March 2, 2007 – StorageCraft Technology Corporation, a provider of innovative disk-based backup, disaster recovery, data protection, migration and security solutions for servers, desktops and laptops, announced today it will be an exhibitor at the upcoming Data Protection Summit 2007. DPS will be March 12-15 in Irvine, Calif.

StorageCraft Chief Technology Officer, Scott Barnes, will be participating in a panel discussion titled, “Data Protection in a Microsoft Windows Environment.” Those attending this discussion will hear ways they can keep their company’s valuable data safe.

StorageCraft will also show attendees how they can protect their Windows systems and data with StorageCraft ShadowProtect™ line of disk-based backup and disaster recovery software.

Visit the StorageCraft Technology Corporation booth #35 to sign up for the StorageCraft Reseller Partner Program and find out about new offerings available for managed service providers (MSPs).
